About NxEdge

NxEdge products and services provide customers with an extra edge in the highly competitive semiconductor industrial market segment. At the core of our business, the NxEdge philosophy of working extraordinarily close with our customers delivers the right solution at the right time for the right application.

While other companies may innovate with the customer in mind, we innovate with the customer on site -- or at the customer's site. At NxEdge, it's not one size fits all. Instead, we focus on producing maximum competitive leverage for a defined set of strategic customers.

To learn more about NxEdge, visit us online at nxedgeinc.com or contact one of our North American facilities.

Coatings and Components Business

Based out of Boise, Idaho, NxEdge Coatings and Components offers products and services designed to deliver superior wear and particle performance for a wide array of applications.

INTEGRATED CAPABILITIES Our in-house operations and processes enable us to perform multiple capabilities under one roof, giving our customers the convenience and assurance of one point contact. Our Coatings and Components portfolio includes end-to-end component design, plasma and other advanced coatings, precision manufacturing, testing, and more.

COMMITMENT TO EXCELLENCE NxEdge is committed to meeting the high quality standards that our customers demand. In addition to an ISO 9001 certified coating and manufacturing operation, we continuously work to refine processes and invest in our workforce to maintain excellence in quality management and operational efficiency.

Secondary Market Business

Operating out of Austin, Texas, NxEdge Secondary Market features refurbishment and redeployment of equipment, subsystems, and spare parts for global customers in the semiconductor industry.

CUSTOMER FOCUS We have extended our customer-based approach to create innovative, cost-effective improvements in the highly cost competitive semiconductor manufacturing environment. Through our comprehensive product and service offering, NxEdge addresses the unique requirements of each customer.

Our growing portfolio of equipment and subsystem refurbishment solutions, together with an expanding online spare parts offering, are enabled by our scalable, systems-based methodology.

NEW SURPLUS OEM PARTS Largest on-hand inventory of new surplus OEM parts at 50 to 65 percent off the current OEM list price.

REFURBISHED EQUIPMENT Equipment refurbishment to OEM specifications, specializing in Novellus Concept One CVD systems.

REFURBISHED SUBSYSTEMS Refurbishment services for a wide range of subsystems, including pumps, chillers, heat exchangers, and RF generators.

PRE-OWNED EQUIPMENT Redeployment solutions for a broad range of pre-owned equipment, all owned or controlled by NxEdge at our own facility.

ISO 9001:2001

The NxEdge quality system at our Boise, Idaho, location is registered as an ISO 9001-2000 facility.
